[Announcer]: Dr. Paul Berg, Nobel Prize Winner, Professor of Cancer Research.

[Dr. Berg]: "Stem cell research is an important scientific and medical breakthrough.

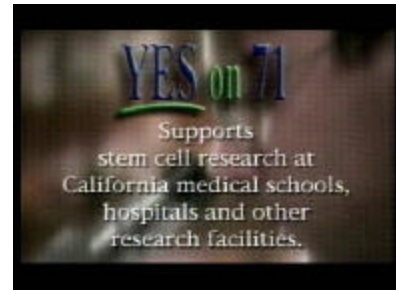

that could produce new cures for diseases like cancer, heart disease,

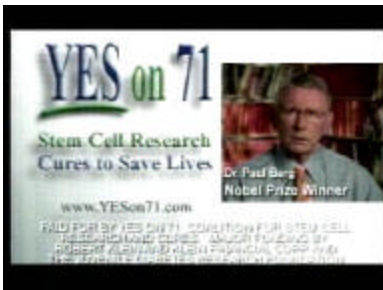

diabetes, and Parkinson's. But politics have blocked vital areas of

this research. Proposition 71 breaks the political logjam by supporting

supporting stem cell research at California medical schools, hospitals, and other research facilities.

Please join me in voting 'yes' on 71." [PFB]: Yes on 71, Coalition for Stem Cell Research and Cures
