[Fox]: "My most important role lately is as an advocate for patients

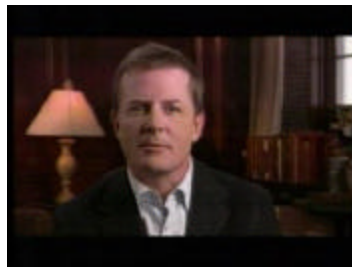

and for finding new cures for diseases. That's why I'm

asking you to vote Yes on Proposition 71 - the stem cell

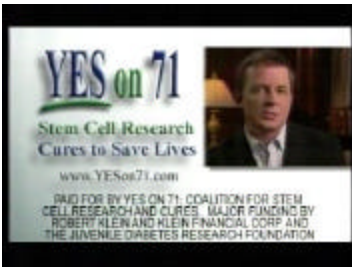

research initiative. 71 will support research to

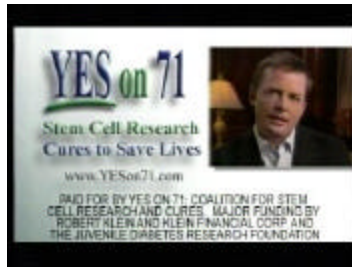

find cures for diseases that affect millions of

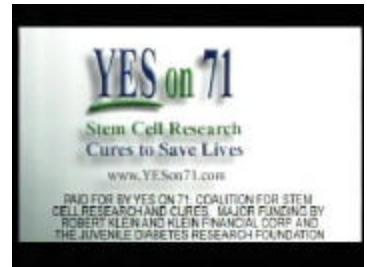

people, including cancer, diabetes, Alzheimer's and

Parkinson's. Please support the effort to find cures by

voting yes on 71. It could save the life of someone you love."
