**Creative Id:** 3602354

[Fox]: "Hi. I'm Michael J. Fox, and I'm joining with other

patient advocates to urge you to vote Yes on Proposition 71, to

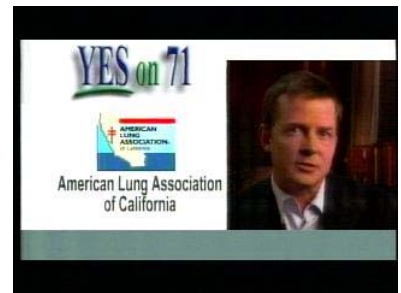

support stem cell research that could save millions of lives.

A Yes vote on 71 is endorsed by over 70 medical and patient

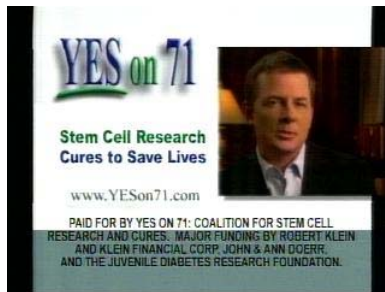

organizations, the largest coalition of its kind ever formed

to support a ballot measure. Seventy one will support research to

find cures for diseases that effect millions of people.

Please support the efforts to find cures by voting Yes on 71.

It could save the life of someone you love. [PFB]: Coalition for Stem Cell Research and Cures
